

# Window Cleaning

At Unger, the window cleaning industry is both where the company started and where we continue to be a world leader. Starting with founder Henry Unger's desire to create a better squeegee, Unger has built a reputation of creating the highest quality, most innovative tools available.

Products such as the HydroPower line of pure water production systems demonstrate that today, and moving forward, quality and innovation remain core values of Unger.

## HYDROPOWER®

### Cleaning with PureWater

Pure water is tap water that has been stripped of naturally occurring minerals. The minerals in the water are measured using total dissolved solids (TDS).

Once the minerals are removed (a process known as deionization), the water dries spot-free leaving surfaces professionally clean without the use of chemical additives.

Deionizing water in a portable and cost effective way can be a challenge. Car washes use pure water systems to rinse a car clean, but these systems are large and not suitable for window cleaning.

The Unger HydroPower systems are designed to be the perfect fit for professional cleaners. Engineered to be portable, easy to operate, and extremely efficient, Unger HydroPower systems are at the cutting-edge of innovation when it comes to pure water for the cleaning industry.

#### Surfaces to Clean with PureWater TDS Measurements:

**0-09**

**Transparent Surfaces**  
- Windows  
- Glass

**10-40**

**Opaque Surfaces**  
- Walls  
- Awnings  
- Signs

The built-in TDS meter allows you to quickly and easily check water quality.

## nLITE® WATERFED POLE SYSTEM

Avoid dangerous ladders with Unger's revolutionary nLite Waterfed Poles! Safely clean upper-story windows from ground level with these strong, lightweight poles that don't compromise on rigidity.

Extension Poles, which include yellow and red visual warnings to prevent unintentional separation, attach easily to Master Poles to reach lengths up to 65'. See why nLite poles are the ultimate in waterfed technology!

### The Advantages of Waterfed Poles

#### Worker Safety – No ladders needed!

For most applications, the dangerous use of ladders is not necessary – this results in safer working conditions for cleaners.

#### PureWater Cleans Without Chemicals

The use of PureWater eliminates the need for harmful cleaning chemicals. This results in a safer, chemical-free workplace for cleaners and no harmful chemicals destroying our environment. Green Cleaning!

#### Waterfed Poles Increase ROI Over Lift Rentals

Renting a lift is an expensive recurring cost to get the jobs done. Investment into a HiFlo PureWater System does not incur major additional costs and can be used for years.

#### In sourcing vs. Outsourcing Your Cleaning Jobs

With inexpensive operating costs, insourcing your cleaning jobs using the HiFlo PureWater Cleaning Systems has a very attractive cost-saving potential.

OUTSOURCING

# HydroPower™ PureWater Kits

Pure water is the fastest and most efficient way to clean outdoor glass surfaces. ## Tool Connections

### Lock On

Any tool with a hole in the handle and "LOCK" inscribed on it locks onto the ErgoTec® Locking Cone preventing the tool from twisting or pulling off the pole during work.

### Press On

Special grooves on the cone ensure a secure fit for the tools.

### Screw On

These tools screw onto the ACME thread of an Unger cone.

### Snap On

These tools snap directly onto Unger telescopic poles.

## Expert Tips - How Professionals Scrape

- Check if glass is scratch-resistant and suitable for scraper use  
*Unsuitable glass surfaces include: plexiglass, crown glass, solar glass, and safety glass (ESG)*
- Always follow the manufacturer's instructions
- Perform a scrape test in advance on a small section
- Before starting, check the glass for any damage and report it, if necessary
- Check the blade for damage and change or reverse it
- The surface to be scraped should always be wet
- It is best to use a releasing agent, such as EasyGlide Glass Cleaner
- Scrape in one direction. Never pull the scraper back, as this may cause scratches
